

Section:	2. Meetings
Subpart:	2.5. International Events
Policy No.:	2.5.1.
Title:	NCWM Representation Internationally
Effective:	October 2005
Revised:	July 2009

NCWM Representation Internationally

Purpose: To provide guidance and consistency in NCWM representation at international events.

Background: There has been some inconsistency in the past regarding the person selected to represent NCWM at international meetings. It is important to have clear guidelines in place to not only provide the consistency, but also to avoid conflicts in the decision process.

Policy:

1. For NTEP, MAA issues, the NTEP Administrator will be designated as the NCWM representative.
2. For the U.S. and legal metrology issues, the NCWM Chairman or his/her designee shall represent NCWM.
3. In any case, the representative shall be an active member or NCWM staff person.
