

Kate Smetana – Metrologist | Colorado Department of Agriculture

Kate is a Metrologist and Quality Manager for the Colorado Metrology Laboratory. She began her Weights and Measures career with the Colorado Department of Agriculture in 2008 as a field inspector. In 2012 she took an opportunity to transfer into the lab where she has played a pivotal role in designing their new laboratory facility and pushed to increase the laboratory's scope of accreditation to include Echelon I calibration services. In addition to proudly serving the consumers of Colorado, Kate is an Associate Instructor with the NIST Office of Weights and Measures.
