RE: WATERPROFIT

10305 NW 41 Street, Suite 219 Miami, FL 33178

To Whom It May Concern:

The Association installed Waterprofit System at our property on 08/08/2018. I highly recommend this state-of-the-art saving device. Immediately after the valves were installed in the domestic and irrigation piping systems, we have reduced the water bills by more than 32%, comparing same months of the year.

Our property is a 24-floor story building with a considerable water consumption. We are grateful to Waterprofit for helping us to save significantly and due to the high efficiency of these valves, the return of the investment has been less than 6 months.

It is important to point out the fact that these devices are maintenance free, adding to the value of our investment

If you have any questions, feel free to contact me anytime at 305 607 4544.
