RE: MDM-22.1 D S.1.7. Minimum Measurement.

Dear Mr. Don Onwiler,

This is regarding S&T item MDM-22.1 on the NCWM agenda.

Mettler Toledo opposes the item MDM-22.1 on the basis that a specific device type should not be given an exemption, we feel all device types should be required to meet all specifications regardless of the application in which it is used. Mettler Toledo proposes that the item be Withdrawn.

Thank you for your assistance in this matter. If you have any questions regarding this information please do not hesitate to contact me.

Best Regards,

Scott Davidson
