

J.A. KING

PRECISION MEASUREMENT PROFESSIONALS

We are a 100% Employee Owned Precision Measurement Company with more than 30 locations across the Southeast and Midwest. Founded in 1939, our company's guiding principles have been Character, Integrity, and Professionalism. If you want to join a highly successful team, we can offer you an interesting career in the industrial measurement industry. Our team of 450 employees boasts a 96% job satisfaction rating! We offer competitive compensation, great benefits including medical, dental, vision, life insurance, short and long term disability, paid time off, holidays and extensive training. The Field Service Tech is given a company vehicle, tools, calibration standards, a laptop, smart phone, and everything needed to provide calibration on a wide variety of industrial scales in our ISO 17025 accredited lab or at our customer's facilities. This is rewarding work; if you have great computer skills, mechanical and electrical aptitude and can lift 50 – 100 pounds, come join our team.

Title of Position: Field Service Technician

Locations:

- **Des Moines, Iowa**
- **Memphis, TN**
- **Nashville, TN**

Job Summary:

Field Service Technicians work mostly on their own in the field to calibrate and / or repair customer's industrial scales. Candidates must have strong computer skills, be in good physical condition, enjoy solving technical problems and work as part of a team. Upon completion of calibration, the service tech enters data into calibration software and creates a Certificate of Calibration for the customer. There are some overtime and weekend hours.
